A NEGRO cut a white man while quarrelling over a crap game at Benton. A white man who would shoot craps with a negro ought to be cut.—Cadiz Record

A MISSOURI editor, in referring to a picnic given in his neighborhood says: "Many of the men went out for pleasure; others were accompanied by their wives."

THERE is a new way of committing suicide. It is to get in an automobile and chase up a country road at the rate of a mile a minute. The chances are that you will make a success of self-destruction if you try this method.

ANOTHER way to commit suicide has been discovered through the automobile going at a mile a minute, but it is quite expensive, and will not become general as long as poison and pistol are so cheap and handy.—Post.

AMONG the features attending Omaha's reception of President Roosevelt on his coming Western trip will be a wild race of 500 miles from Deadwood, S. D., to Omaha by members of the regiment of the Rough Riders and other horsemen of the plains.

THE Democratic party does not need re-organizing. All it needs is the united efforts of all Democrats, and victory is certain. All persons who are opposed to the centralization of power, imperialism, and trust domination are Democrats and should be working in Democratic harness.—Carrollton, Ill., Gazette.

THE new primary law in South Carolina requires every candidate for a State office or for the United States Senate to make at least one speech in every county before the date of the primary election. We hope that a law will never be made like that in Kentucky, nor a law that would compel a voter to listen to a speech.

FORMER Gov. Bradley "don't want a newspaper in Louisville or any other place," and former Candidate Yerkes don't want another gubernatorial nomination—leastwise, not in Kentucky under present conditions. Verily of some things some men want but little here below, nor want that little long.—Georgetown News.

SUPPOSE a newspaper man, every time he hears a man criticize him or his paper in public should retaliate by holding up to public gaze the faults and short coming of said fault-finder, what would be the result? The editor may not know it all, but he does not live in a community long without knowing a duce sight more than he publishes.—Winchester Democrat.

AN exchange says: "An Eastern editor says that a man got into trouble by marrying two wives. A Western man replies that many have done the same marrying one. A Northern editor says that quite a number of his acquaintances found trouble enough in promising to marry and not going any farther. A Southern editor says that a friend of his was bothered enough when he was found in company with another man's wife."

FAIR, the semi-crazy Californian whose tragic end carries such a moral with it, got about what he had bargained for. A man running a vehicle upon a highway at the rate of sixty miles an hour deserves to be shot off the box as one would shoot a mad dog at large on the highway. The automobile insanity, which has reached its culmination in France, is but just beginning its career in the United States. It is only a question of time when it will be brought to a round turn. But whether the round turn be a millionaire smash-up of the fair kind, or a bullet through the heart of a Vanderbilt, is one of those secrets which no fellow can find out, can he know!—Courier-Journal.

The too-fat person believes that "there is no loss without some gain."

Every Chinaman is hogish when it comes to hanging onto his own pigtail.

Let us hope that "What goes up must come down" applies to the price of coal.

It goes without saying that many people never go without saying "Good-by."

Save Your Hogs.

Why let your hogs die when you can cure them by using Laughlin's Hog Cholera Cure.

It will also cure chicken cholera.
